ALDERMAN MILLS EXPLAINS THE DEPLETED TREASURY.

SAYS THE CITY WAS "BUSTED" WHEN THE PRESENT ADMINISTRATION TOOK THE OARS.

Editor Gazette-News:—In view of remarks and the general attitude of citizens and tax payers of our city toward the City Council, as one of that body, I feel as though in defense of said body, matters as they are should be placed before the public in the proper light. At the commencement of the present term of office last February, the incoming Council faced a depleted treasury and an indebtedness nearing \$4,000. The much abused occupation tax had just been defeated, which meant a serious loss to the city. The waterworks were about to be installed, which is a great expense to the city at present as the plant is far from being self-sustaining, and the installation of the system has had a great deal to do with putting the streets in the condition in which they now are.

According to the City Charter we have no means of borrowing money and if we do our duty by the citizens we have no right to run the city in debt without incriminating ourselves, other than if we give personal notes and receive as a reward the chagrin of being called a thief or a fool, which becomes rather notorious when you are giving your time and labor gratis to a very unappreciative public.

Please be kind enough to invest your vote before you judge too harshly, as we have a body of men, I believe, who are doing all they can for the betterment of the city.

Mr. Burgoyne's offer is more than generous and if our good citizens will rally to our support now they will do the city an overwhelming service.
